Join us for the launch of two books at the Lumen Research Institute International Conference 2023: Faith, Cohesion, and Communities.

***Redeeming Truth and Community in the Age of Individualism: Meaning and Morality in the Contemporary World*** is from the 2021 Lumen Conference at Excelsia. Its 10 chapters deal with three major themes: positive transformation through unity; soul care, climate care, and the church; and inclusion and exclusion, (un)truth, control and freedom.

***Embracing Diversity: Formative Christian Higher Education and the Challenge of Pluralisms*** comprises selected papers from the 2021 ACHEA (Australian Christian Higher Education Alliance) Conference at Excelsia. The book, also with 10 chapters, considers maintaining a distinctively Christian mission whilst welcoming and including students of all faiths. It offers ways of rethinking Christian higher education and strategies for implementation.

All those registered for the conference, contributors to the books, and those interested in the themes of the volumes are invited to attend. To register for the conference and related workshop see links below.
